Indian Institue of Technology, Guwahati
Bachelor of Technology - Engineering Physics

July'15 - July'19

JVP International School
Percentage: 89.8

2015

WORK EXPERIENCE

Fair Issac Corporation (FICO), Bengaluru
Solution-Integration Consultant

July 2019

- Technical consultant for leading fin-tech firm. Impacted clients across Apac in decision making services, implemented scalable software solutions to improve businesses, using SOAP-REST and JAVA.

PROJECTS

Web service implementation for Tokio Marine Insurance - Malaysia

Delivered highly scalable and maintainable SOAP-web service for integration of proprietary software. Worked in agile methodology to architect and integrate business needs regularly.

Dynamic bulk test utility - Soap Test Harness

Independent developer of java utility for automation of web service testing and analysis. The utility improved testing speed and accuracy multifold and overcame product limitation. Can be used for any Soap web service and thus registered under fico reusable components.

Demo Fico score - Loan Application

Developed a complete loan processing restful application end to end in a team of five. This application takes in details from UI, processes bureau data(duplicated) and decides the credibility of customer using a python log-reg model.

Miscellaneous

Upgraded and tested an out of box utility to generate xml reports for Falcon- leading fraud detection tool in world.

Developed cxf-jaxws client and provider to understand various aspects of spring security.

Developed to-do application using: MERN stack, Electorn.js as a desktop app and using Angular and Spring Boot backend controller.

TECHNICAL SKILLS

Languages	Java, C++, Python, SQL, JavaScript
Frameworks	Spring, Spring-Boot, WS-Security, React, Angular, Redux, MAVEN
