## EDUCATION

---

**Indian Institue of Technology, Guwahati**

*July'15 - July'19*

Bachelor of Technology - Engineering Physics

**JVP International School**

*2015*

Percentage: 89.8

## WORK EXPERIENCE

---

**Fair Issac Corporation (FICO), Bengaluru**

*July 2019*

*Solution-Integration Consultant*

- Technical consultant for leading fin-tech firm. Helped client across Apac in decisions, implemented softwares to improve businesses, using SOAP-REST and JAVA.

## PROJECTS

---

**Web Service Implementation for Tokio Marine Insurance - Malaysia**

Implemented highly scalable and maintainable SOAP-web service for integration of proprietary software. Worked in agile methodology to architect and integrate business needs regularly.

**Dynamic Bulk test utility - Soap Test Harness**

Standalone developer of java utility for automation of web service testing and analysis. The utility improved testing speed and accuracy multifold.

Can be used for any Soap web service and thus registered under fico reusable components.

**Demo Fico Score - Loan Application**

Developed a complete loan processing restful application end to end in a team of five. This application takes in details from UI, processes bureau data(dubbed) and decides the credibility of customer using a python log-reg model.

**Miscellaneous**

Developed cxf-jaxws client and provider to understand various aspects of spring security.

Developed to-do application using: MERN stack - JS, Electorn JS as a desktop app and using Spring-Boot backend and Angular frontend. POC for icici prudential using annox xjb bindings
